In the event any Part(s) or provision(s) of this Scheme are withdrawn and the Participating Companies decide to implement the remaining Part(s) or provision(s) of this Scheme, to the extent of such withdrawn provision(s), this Scheme shall become null and void and no rights or liabilities whatsoever shall accrue to, or incurred by, the relevant Participating Companies, their respective shareholders and/or creditors and/or any other persons with respect to such provisions or Part(s) of the Scheme.  - (b) such Part shall be severable from the remainder of the Scheme and the remainder of the Scheme shall not be affected thereby, unless the deletion of such Part shall cause the Scheme to become materially adverse to any Company, in which case each of the Participating Companies, (acting through their respective Boards of Directors or committees or such other person or persons, as the respective Board of Directors may authorize) shall attempt to bring about a modification in the Scheme, as will best preserve for the Participating Companies, the benefits and obligations of this Scheme, including but not limited to such Part. To the Members of Growth Securities Private Limited

Report on the Audit of the Financial Statements

Opinion

1. We have audited the accompanying financial statements of **Growth Securities Private Limited** ('the Company'), which comprise the Balance Sheet as at **31-March-2023**, the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, notes to the financial statements, and a summary of the significant accounting policies and other explanatory information ("here in after referred to as the financial statements").
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 as amended ("the Act") in the manner so required and give a true and fair view, in conformity with the Accounting Standards specified under section 133 of the Act, read with (the Companies (Accounting Standards) Rules, 2021) and other accounting principles generally accepted in India, of the state of affairs of the Company as at **31-March-2023**, and its profit and its cash flows for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Financial Statements and Auditor's Report thereon

4. The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.
5. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
6. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially

inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

7. When we read the Annual Report, if we conclude that there's a material misstatement therein, we are required to communicate the matter to Board of Directors.

Responsibilities of Management for the Financial Statements

8. The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards specified under section 133 of the Act, read with the Companies (Accounting Standards) Rules, 2021 and other accounting principles generally accepted in India.
9. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.
10. In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
11. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
13. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to

those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management;
- Conclude on the appropriateness of 'Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
16. We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit
17. We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Responsibilities of Management and the Board of Directors for the Standalone financial statements

The accompanying standalone financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Accounting Standards specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for the safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation, and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place adequate internal financial controls system with reference to standalone financial statements and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Items	Measurement basis

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ended 31-March-23 is included in the following note:

- Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used

B) Financial Instruments

Recognition and initial measurement

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value. Subsequent measurement of financial assets and financial liabilities is described below:

Non-derivative financial assets

Subsequent measurement

Financial assets carried at amortised cost - a financial asset is measured at the amortised cost, if both the following conditions are met:

The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

Investments in equity instruments of subsidiaries

Investments in equity instruments of subsidiary is measured at cost in accordance with Ind AS 27 Separate Financial Statements.

De-recognition of financial assets

A financial asset is primarily de-recognized when the contractual rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Non-derivative financial liabilities

Subsequent measurement

Subsequent to recognition, all non-derivative financial liabilities are measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

C) Revenue

The Company applies the revenue recognition criteria to each nature of revenue transaction as set-out below:

i) Recognition of dividend income, interest income or expense

Dividend income is recognised in statement of profit and loss on the date on which the Group's right to receive payment is established.

Interest income or expense is recognised using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

D) Income tax

Income tax comprises current and deferred tax. It is recognised in statement of profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is recognised for:

- deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Algoquant Investments Private Limited
[Formerly Mandelia Investments Private Limited]
Summary of significant accounting policies and other explanatory information forming part of
the standalone financial statements for the year ended 31-March- 2023

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity and in this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

Minimum Alternative Tax ('MAT') credit is recognized as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

E) Earnings per share

The basic earning/loss per share is computed by dividing the net profit/(loss) before other comprehensive income attributable to owners of the Company for the year by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/(loss) per share comprises the weighted average shares considered for deriving basic earnings/(loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

F) Provisions and contingent liabilities

Provisions are recognized only when there is a present obligation, as a result of past events and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

the standalone financial statements for the year ended 31-March- 2023

Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

G) Impairment

Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount. The carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If, at the reporting date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets, Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

H) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

I) Cash flow statement

Cash flows are reported using the indirect method, whereby net profit/ (loss) before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated.

J) Segment Reporting

In accordance with IND AS-108, the Company had only one segment i.e. business of Investments.

19 Fair value hierarchy

Some of the Company's assets and liabilities are measured at fair value for financial reporting purpose. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date regardless of whether that price is directly observable or estimated using another valuation technique.

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurement are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs) that the Company can access at measurement date.

Market Risks

The Company is not an active investor in equity markets; it continues to hold certain investments in its subsidiary company which are accordingly measured at Cost. The value of investments in such equity instruments as at 31-March-23 is Rs. 206.79 (2022- Rs. 206.79).

As the Company is virtually debt-free and its deferred payment liabilities do not carry interest, the exposure to interest rate risk from the perspective of financial liabilities is negligible. Further, treasury activities, focused on managing investments in debt/equity mutual funds instruments, are centralised and administered under a set of approved policies and procedures guided by the tenets of liquidity, safety and returns. This ensures that investments are only made within acceptable risk parameters after due evaluation.

Foreign currency risk

The Company does not have any foreign currency risk as it does not have any exposure in foreign currency as at the year end. Therefore, the sensitivity to foreign currency fluctuation is not relevant.

Capital management policies and procedures

For the purpose of the Company's capital management, capital includes issued capital and all other equity reserves attributable to the equity shareholders of the Company. The primary objective of the Company when managing capital is to safeguard its ability to continue as a going concern and to maintain an optimal capital structure so as to maximize shareholder value. As at 31-March-2023, the Company has only one class of equity shares and has no debt. Consequent to such capital structure, there are no externally imposed capital requirements. In order to maintain or achieve an optimal capital structure, the Company allocates its capital for the re-investment into business based on its long-term financial plans.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statement.

Key Audit Matter(s)

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Information other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there's a material misstatement therein, we are required to communicate the matter to those charged with governance.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The accompanying financial statements have been approved by the Company's Board of Directors. The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the Accounting Standards specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a

reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the year ended 31-March-2023 and are therefore, the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Financial Statements

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India ('ICAI') prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31-March-2023, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

iv) Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires that management make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities as of the date of the financial statements and the income and expense for the reporting period. The actual results could differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised and in any future periods affected.

In particular, information about significant judgements and areas of estimation uncertainty in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are discussed below:

Significant management judgements

The following are significant management judgements in applying the accounting policies of the Company that have the most significant effect on the financial statements are as follows:

- **Recognition of deferred tax assets** - The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized.
- **Evaluation of indicators for impairment of assets** - The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.
- **Classification of leases** - The assessment (including measurement) of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/terminate etc. After the commencement date, the Company reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to extend or to terminate.
- **Defined benefit plans** - The liabilities and costs for defined benefit plans are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

- **Provisions**

At each balance sheet date basis the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

- **Contingencies**

In the normal course of business, contingent liabilities may arise from litigation, taxation and other claims against the Company. A tax provision is recognized when the Company has a present obligation as a result of a past event; it is probable that the Company will be required to settle that obligation. Where it is management's assessment that the outcome cannot be reliably quantified or is uncertain the claims are disclosed as contingent liabilities unless the likelihood of an adverse outcome is remote. Such liabilities are disclosed in the notes but are not provided for in the financial statements. When considering the classification of a legal or tax cases as probable, possible or remote there is judgement involved.

This pertains to the application of the legislation, which in certain cases is based upon management's interpretation of country specific tax law, in particular India, and the likelihood of settlement. Management uses in-house and external legal professionals to inform their decision.

Although, there can be no assurance regarding the final outcome of the legal proceedings, the Company does not expect them to have a materially adverse impact on the Company's financial position or profitability.

- **Going concern**

The management has made an assessment of the Company's ability to continue as going concern and is satisfied that the Company has resources to continue in business for the foreseeable future. Further, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as going concern.

- **Estimation uncertainty**

Information about estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses is provided below. Actual results may be substantially different.

- **Recoverability of advances/ receivables** - At each balance sheet date, based on discussions with the respective counterparties and internal assessment of their credit worthiness, the Management assesses the recoverability and expected credit loss of outstanding receivables and advances. Such assessment requires significant management judgement based on financial position of the counter-parties, market information and other relevant factor.

financial statement for the year ended 31-March-2023
[All amounts are in rupees lakh, except share data and earnings per share]

- **Classification of assets and liabilities into current and non-current** - The management classifies the assets and liabilities into current and non-current categories based on management's expectation of the timing of realization of the assets or timing of contractual settlement of liabilities.
- **Impairment of non-financial assets** - The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.
- **Impairment of financial assets** - The Company estimates the recoverable amount of trade receivables and other financial assets where collection of the full amount is expected to be no longer probable. For individually significant amounts, this estimation is performed on an individual basis considering the length of time past due, financial condition of the counterparty, impending legal disputes, if any and other relevant factors.
- **Fair value measurements** - Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument. Management bases its assumptions on observable data as far as possible, but this is not always available. In that case management uses the best information available.
- **Useful lives of Property, Plant and Equipment** - The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by management periodically and revised, if appropriate. In case of a revision, the unmortised depreciable amount is charged over the remaining useful life of the asset.

B) Financial instruments

Recognition and initial measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets are recognized when the Company becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted by transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value.

Classification and subsequent measurement

The Company has applied Ind AS 109 and classifies its financial assets in the following measurement categories: -

- Amortized cost
- Fair value through other comprehensive income (FVOCI)

[All amounts are in rupees lakh, except share data and earnings per share]

- Fair value through profit or loss (FVTPL)

a) Financial assets carried at amortized cost

The Company classifies the financial assets at amortized cost, if the contractual cash flows represent solely payments of principal and interest on the principal amount outstanding and the assets are held under a business model to collect contractual cash flows. The gains and losses resulting from fluctuations in fair value are not recognized for financial assets classified in amortized cost measurement category.

Financial asset is measured at the amortized cost, if both the following conditions are met:

The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method.

b) Financial assets measured at FVOCI.

The Company classifies the financial assets as FVOCI if the contractual cash flows represent solely payments of principal and interest on the principal amount outstanding and the Company's business model is achieved by both collecting contractual cash flow and selling financial assets. In case of debt instruments measured at FVOCI, changes in fair value are recognized in other comprehensive income.

Amounts recognized in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognized as other income in the Statement of Profit and Loss.

In case of equity instruments irrevocably designated at FVOCI, gains / losses including relating to foreign exchange, are recognized through other comprehensive income. Further, cumulative gains or losses previously recognized in other comprehensive income remain permanently in equity and are not subsequently transferred to profit or loss on derecognition.

c) Financial assets measured at FVTPL

The financial assets are classified as FVTPL if these do not meet the criteria for classifying at amortized cost or FVOCI. The Company makes such election on an instrument-by-instrument basis. Such financial assets are subsequently measured at fair value at each reporting date. In case of financial assets measured at FVTPL, changes in fair value are recognized in profit or loss.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired; or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (1) the Company has transferred substantially all the risks and rewards of the asset, or (2) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities Subsequent measurement

Subsequent to recognition, all non-derivative financial liabilities are measured at amortized cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

Fair Value

The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability
- In absence of principal market, in the most advantageous market for the asset or liability

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

- Level 1 – quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 – inputs that are unobservable for the asset or liability

C) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on retirement from active use or disposal of an item of property, plant and equipment is recognized in statement of profit and loss.

All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred.

Subsequent expenditure

All items of property, plant and equipment are stated at historical cost less depreciation.

Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as separate asset is derecognized when replaced.

De-recognition

An item of property, plant and equipment or any significant part initially recognised of such item of property plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Depreciation method and estimated useful lives

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method and is generally recognized in the statement of profit and loss.

Depreciation on fixed assets is provided as per the guidance set out in the schedule II to the Companies Act, 2013. Depreciation is charged on straight-line method based on estimated useful life of the asset after considering residual value as set out in schedule II to the Companies Act, 2013. Depreciation on additions (disposals) is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

Useful life of depreciable assets

S.No.	Asset class	Useful life of asset
1	Buildings	3 - 60 years
2	Plant and equipment	8 - 30 years
3	Computers	3 - 6 years
4	Furniture & fixtures	3 - 10 years
5	Leasehold improvements	5 - 10 years

The Management believes that the useful lives as given above represents the period over which the assets are likely to be used. Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

Summary of significant accounting policies and other explanatory information forming part of
financial statement for the year ended 31-March-2023

Short-term employee benefit includes salaries/short-term cash bonus and such obligations are measured at an undiscounted amount and are expensed as the related service is provided. A liability is under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably. These costs are recognized as an expense in the Statement of Profit and Loss at the undiscounted amount expected to be paid over the period of services rendered by the employees to the Company.

(H) Long-term employee benefits

a) Defined contribution plan

Defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes monthly contributions to statutory provident fund (Government administered provident fund scheme) in accordance with Employees Provident Fund and Miscellaneous Provisions Act, 1952 which is a defined contribution plan. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in statement of profit or loss in the period(s) during which the related services are rendered by employees.

b) Defined benefit plan

Defined benefit plan is a post-employment benefit plan other than a defined contribution plan. Gratuity is a post-employment benefit and is in the nature of a defined benefit plan. The Company's liability is determined on the basis of an actuarial valuation using the projected unit credit method as at the Balance Sheet date. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using discount rate with reference to the market yield on government bonds at the end of reporting period. The Gratuity plan of the Company is un-funded.

Defined benefit costs are categorised as follows:

- i) The current service cost of the defined benefit plan, recognised in the Statement of Profit and Loss in employee benefits expense, reflects the increase in the defined benefit obligation resulting from employee service in the current period, benefit changes, curtailments and settlements. Past service costs, which comprise plan amendments and curtailments, as well as gains or losses on the settlement of benefits are recognised immediately in the Statement of Profit and Loss when they occur.
- ii) The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation. This cost is included in finance cost in the Statement of Profit and Loss.
- iii) Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability, are

recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to the Statement of Profit and Loss in subsequent periods.

For discontinued operations, in view of closure of its operations in earlier years, the Company's net obligation in respect of defined benefit plans had been considered as current liability and has been calculated on actual basis as per the provisions of Payment of Gratuity Act, 1972. The same was discharged during the previous year.

E) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

F) Leases

For any new contracts entered into on or after 01-April-2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company recognizes right of use assets, measured at an amount equal to lease liability (adjusted for related prepayments/ accruals) and discounts lease payments using the incremental borrowing rate for measuring the lease liability.

The Company depreciates the right of use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed), variable payments based on an index or rate, amounts expected to be payable under a residual value guarantee and payments arising from options reasonably certain to be exercised.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is remeasured, the corresponding adjustment is reflected in the

right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognized as an expense in Statement of profit and loss on a straight-line basis over the lease term.

G) Revenue Recognition

Trading in financial instruments

Revenue from trading, primarily consists of trading in marketable financial instruments earned by the Company. Net Trading income represents trading gain net of losses. The profit or loss arising from all transactions entered into on account and risk of the Company are recorded on completion of trade date. The revenue is recorded at the gross value after net trading revenue.

Market Value for exchange traded derivatives, principally, futures and options, are based on quoted market prices. The gains or losses on derivatives used for trading purposes are included in revenue from trading. Purchase & Sales of derivatives financial instruments are recorded on trade date. The transactions are recorded on a net basis.

As per Ind AS 109 Financial Instruments, in respect of options contracts open as on the reporting date, the net premium paid or received is carried forward to the balance sheet as financial assets or financial liabilities. The unrealized gain or loss measured on fair valuation is shown as financial assets or financial liabilities.

Consulting and advisory Income

Advisory income or service income is accounted for on an accrual basis in accordance with the terms of the respective agreements entered into between the Company and the counter party.

Interest income

Revenue is recognized on accrual basis using effective interest rate method.

Dividend income

Dividend on equity shares, preference shares and on mutual fund units is recognized as income when the right to receive the dividend is established as at the reporting date.

H) Income tax

Income tax comprises current and deferred tax incurred by the Company. It is recognised in statement of profit or loss except to the extent that it relates to items recognised directly in equity or OCI, in which case the tax effect is recognised in equity or OCI.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the period, using tax rates enacted by the reporting period and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes.

Current tax assets and current tax liabilities are off set when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle the asset and the liability on a net basis. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is recognised for:

-deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets - unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

Minimum Alternative Tax ('MAT') credit is recognized as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the

specified period.

Current and deferred tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in other comprehensive income or directly in

equity and in this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset

current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realised simultaneously.

I) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

J) Earnings per share

The basic earning/loss per share is computed by dividing the net profit/(loss) before other comprehensive income attributable to owners of the Company for the period by the weighted average number of equity shares outstanding during reporting period.

The number of shares used in computing diluted earnings/(loss) per share comprises the weighted average shares considered for deriving basic earnings/(loss) per share and also the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

While computing basic and diluted earnings/loss per share the Company takes into account issue of ordinary shares during the period which can be in the form of fresh issue at fair value, bonus issue without any consideration, stock split, issue of shares to the existing holders in lieu of dividends, right issue to the existing holders of ordinary shares at a price which is equal to or less than the fair value and so on. Accordingly, restated comparative figures of earning/loss per share is presented in the financial statements.

K) Provisions and contingent liabilities

Provisions are recognized only when there is a present obligation (legal or constructive), as a result of past events and when a reliable estimate of the amount of obligation can be made at the reporting date. Provisions are determined based on management estimates required to settle the obligation at the balance sheet date, supplemented by experience of similar transactions. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material. Contingent liability is disclosed for:

- Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are neither recognized nor disclosed except when realisation of income is virtually certain, related asset is disclosed.

L) Impairment

Impairment of non-financial assets

At each reporting date, the Company assesses whether there is any indication based on internal/external factors, that an asset may be impaired. If any such indication exists, the recoverable amount of the asset or the cash generating unit is estimated. If such recoverable amount of the asset or cash generating unit to which the asset belongs is less than its carrying amount. The carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If, at the reporting date, there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is re-assessed and the asset is reflected at the recoverable amount. Impairment losses previously recognized are accordingly reversed in the statement of profit and loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss for financial assets.

ECL is the weighted-average of difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets; and;

Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

M) Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ('CODM') of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segment of the company.

In accordance with IND AS-108, prior to 10-Feb-2021 the Company had only one business segment i.e., business of trading in metals. However, due to unfavorable business environment and to safeguard against losses the Management did not engage into trading in metals during financial years ended 31-March-2020 and 31-Mar-2021. Further, w.e.f. 01-April-2021, the Company has discontinued the business of trading in metals.

The new Management has engaged in the business of trading in financial instruments w.e.f 10-Feb-2021. Accordingly, revenue from operations for the year ended 31-March-2023 represents revenue from trading in financial instruments.

N) Dividends

Being appropriately authorized and no longer at the discretion of the entity, provision is made for the amount of any dividend declared, on or before the end of the reporting period but not distributed at the end of the reporting period.

Final Dividend is recorded as liability on the date of approval by shareholders in their General Meeting. Interim Dividend is declared as liability on the date of declaration by Board of Directors.

O) Events after Reporting Date

Where events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed.

The labour union had submitted a demand notice to the Management of the Company for revision of wages and other amenities. This notice was under negotiation when without any prior notice, the workers staged a walk out on 22-May-2020 bringing the production and all aligned activities to a complete standstill. All efforts by the management as well as the labour department to find a resolution to the strike were unsuccessful.

The Hon'ble Governor of Haryana issued orders declaring the strike to be illegal and directed the workers to join duty within 3 days of the order and refer the dispute to the labour court panipat. This too had no effect on the labour union and the workers resorted to unrest and production shut down on 3 separate occasions causing heavy losses to the Company. The strike continued, forcing the management to issue notice of forfeiture of Gratuity and all other dues include lien on service of all workers on payrolls.

The notice regarding the forfeiture of gratuity and other dues was challenged by some of the workers through Labour office, Sonipat where the matter was dismissed in favour of the Company. Thereafter, the workers appealed before the Dy. Labour Commissioner, Rohtak where DLC ruled the matter in favour of the workers i.e. against the Company. The learned DLC chose to pass this order without giving due consideration to the actual facts of the case and therefore, the Management then had no option but to approach the High Court, Chandigarh vide writ petition no. 18716/2018 and the case was decided against the Company on 06-Mar-2020. Management has filed a revision petition on a larger bench on 05-July-2020 and the petition has been admitted for hearing on merit 22-Mar-2022.

Pursuant to the judgement of the double bench of the Hon'ble High Court of Punjab and Haryana at Chandigarh relating to the gratuity claims of certain employees, the Company has received additional claims during the year ended 31-March-2023 and subsequently. Consequently, the Company has re-assessed the potential claims and recorded appropriate accruals in the financial statements for the year ended 31-March-2023 on a prudent basis.

The Company is carrying a total provision of Rs.307.21 lakh (previous year Rs. 147.52 lakh) in the books of account. Based on the opinion of legal counsels, the management believes that the provision recorded is sufficient to cover for the eligible claims.

Sensitivity Analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase rate. Effect of change in mortality rate is negligible. I. Scope and Purpose of the Report

The Board of Directors of the Companies are considering the proposal for the Scheme of Arrangement ("Scheme") under Section 230 to 232 read with Section 66 of the Companies Act, 2013 and the rules specified thereunder. Subject to the necessary regulatory and statutory approvals, the Demerged Undertaking of GSPL would be demerged into AFL and subsequently, AIPL would be amalgamated with AFL. Such scheme of arrangement will be effective from the Appointed Date i.e. 01st April, 2023.

The shareholders of GSPL and AIPL will be allotted equity shares of AFL as a consideration for proposed demerger and amalgamation. In this regard, I have been appointed by the management of AFL to carry out valuation of equity shares of the Companies involved in the proposed restructuring and to recommend fair share entitlement ratio for the proposed demerger of Demerged Undertaking of GSPL into AFL and for proposed amalgamation of AIPL with AFL. For this purpose, this report is being furnished by Mr. Manish Manwani in the capacity of the Registered Valuer under Section 247 of the Companies Act, 2013.

This report is being issued under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with circular issued by the SEBI, being Circular CFD/DIL3/CIR/2017/21 dated March 10, 2017, Circular CFD/DIL3/CIR/2017/26 dated March 17, 2017, and any amendment thereof modification issued pursuant to regulations 11, 37 and 94 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and the Master Circular being Circular SEBI/HO/CFD/DIL1/CIR/P/2021/0000000665 issued by SEBI on November 23, 2021, as amended from time to time (hereinafter collectively referred as "SEBI Circulars") and in accordance with the requirement of the Foreign Exchange Management (Non-Debt Instruments) Rules, 2019 (as amended).

The scope of my services is to conduct a relative (and not an absolute) valuation exercise at the Valuation Date to determine the equity value of the Companies and then arrive at the share entitlement ratio using internationally accepted valuation methodologies as may be applicable to the Companies and report on the same in accordance with international valuation standards issued by International Valuation Standards Council.

This Report sets out our recommendations of the fair equity share entitlement ratio and discusses the methodologies and approaches considered for arriving at the relative values of equity shares of the Companies for the recommendation of fair equity share entitlement ratio.

II. Rationale of the Scheme of Merger

- The Companies propose to enter into Scheme, to consolidate their service capabilities thereby increasing efficiencies in operations and use of resources for improving overall customer satisfaction, optimization of working capital utilization, to pool their human resource talent for optimal utilization of their expertise, to integrate the marketing and distribution channels for better efficiency, to have a larger market footprint domestically, and furthermore, to simplify and streamline the group holding structure.

- Management representations given by the management either written or oral from time to time to Valuer.

During the discussion with the management, I have also obtained explanations, information and representations, which I believed were reasonably necessary and relevant for my exercise.

VII. Valuation Approaches

It should be understood that valuation of any company or its assets is inherently subjective and is subject to certain uncertainties and contingencies, all of which are difficult to predict and beyond my control. In performing my analysis, I made numerous assumptions with respect to industry performance and general business and economic conditions, many of which are beyond the control of the Company. In addition, this valuation will fluctuate with changes in prevailing market conditions and prospects, financial and otherwise of the companies and other factors which generally influence the valuation of the companies and their assets.

The application of any particular method of valuation depends upon the purpose for which the valuation is being done. Although different values may exist for different purposes, it cannot be too strongly empathised that a valuer can arrive for one value for one purpose. My choice of methodology of valuation has been arrived at using usual and conventional methodologies adopted for transactions of similar nature and my reasonable judgment, in an independent and bona fide manner based on my previous experience of assignments of similar nature.

This exercise may be carried out using various methodologies, the relative emphasis of each often varying with:

- Industry to which the company belongs.
- Ease with which the growth rate in cash flows to perpetuity can be estimated.
- Extent to which industry and comparable company information is available.
- Having arrived at an assessment of fair value, some adjustments that are typically considered in such an exercise are:
- Whether there is change of control and therefore a control premium is justified for a particular purchaser, if any.
- Whether the entity is listed on a stock exchange.
- Whether the shares are marketable and frequently traded or there is a case for discounting on account of illiquidity, if applicable.

The three traditional approaches to value are the market, income, and cost approaches. In developing my opinion, I considered all three approaches to value the Company and chose the most appropriate approach or approaches. My conclusions rely on the approaches judged to be most appropriate for the purpose and scope of my analysis, as well as the nature and reliability of the data available to us. The three approaches to value are summarized as follows:

A. Market Approach

Under the Market approach, the valuation is based on the market value of the company in case of listed companies and comparable companies trading or transaction multiples for unlisted companies. The Market approach generally reflects the investors' perception about the true worth of the company.

Market Price ('MP') Method

Under this method, the market price of an equity shares of the company as quoted on a recognized stock exchange is normally considered as the fair value of the equity shares of that company where such quotations are arising from the shares being regularly and freely traded. The market value generally reflects the investors' perception about the true worth of the company.

Comparable Companies Multiple ('CCM') Method

Under the Comparable Companies Multiple ('CCM') method, the value is determined on the basis of multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based on the principle that market valuations, taking place between informed buyers and Informed sellers, incorporate all factors relevant to valuation. Relevant multiples need to be chosen carefully and adjusted for differences between the circumstances.

Comparable Transactions ('CTM') Method

Under the Comparable Transactions Multiple ('CTM') method, the value of a company can be estimated by analyzing the prices paid by purchases of similar companies under similar circumstances. This is a valuation method where we will be comparing recent market transaction in order to gauge current valuation of target company. Relevant multiples have to be chosen carefully and adjusted for differences between the circumstances. This valuation approach is based on the principle that market valuations, taking place between informed buyers and informed sellers, incorporate all factors relevant to valuation.

B. Cost (Asset-Based) Approach

The asset-based (net underlying assets) approach is a form of the cost approach. The values of the individual assets (i.e., current, fixed, and intangible) of the business are estimated. The sum of the individual asset values represents the total asset value of the enterprise. The enterprise's liabilities related to working capital are deducted to arrive at an indication of value for the invested capital of the business.

C. Income Approach

The Income approach determines the fair market value by dividing the benefit stream generated by the subject or target company by a discount or capitalization rate. Usually, under

the Income Approach, the methods that may be applied are Discounted Cash Flow (DCF) Method or the Price Earning Capacity (PECV) Method.

Under DCF method, the future free cash flows of the business are discounted to the valuation date to arrive at the present value of the cash flows of the business or capitalized using a discount rate depending on the capital structure of the Company. This method also takes into account the value of the business in perpetuity by the calculation of terminal value using the exit multiple method or the perpetuity growth method, whichever is appropriate.

Under PECV Method, the average earning on the basis of the past 3-5 years is first determined, adjustments are then made for any exceptional transactions or items of non- recurring nature. The adjusted average earnings are then capitalized at an appropriate rate to arrive at the value of business. The capitalization rate so factored has to be decided depending upon various factors such as the earnings trends in the industries. P/E prevailing in the industries etc. After this, the normalized earnings are then capitalized at an appropriate discount rate.

Each of the described approaches may be used to develop a value indication; however, the appropriateness of these approaches varies with the type of business or asset being valued.

VIII. Procedure Adopted

In connection with this exercise, I have adopted the following procedures to carry out the valuation:

- Requested and received financial information;
- Obtained data available in public domain;
- Undertook industry analysis such as researching publicly available market data including economic factors and industry trends that may impact the valuation;
- Detailed analysis of Comparable Companies for each business;
- Discussion (physical/over call) with the management to understand the business and fundamental factors that could affect its earning-generating capability including strengths,
- Weaknesses, opportunity and threats analysis and historical financial performance;
- Selection of valuation methodology/(ies) as per internationally accepted valuation methodologies;
- Determined the fair equity share swap ratio based on the selected methodology; and
- The management has been provided with the opportunity to review the Draft Report (excluding the recommended Share Entitlement Ratio) as a part of my standard practice to make sure that factual inaccuracies/ omissions are avoided in my final report.

For the purpose of arriving at the valuation of the Companies/businesses, I have considered the valuation base as 'Fair Value' and the premise of value is 'Going Concern Value'. Any change in the valuation base, or the premise could have significant impact on our valuation exercise, and therefore, this report.

For basis of valuation approach adopted by me kindly refer Annexure 1 of this report.

IX. Major Factors that were considered during the valuation

- Share price of the Companies are in INR;
- Equity shares of AFL is listed and equity shares of GSPL and AIPL are unlisted; and
- Key operating/ financial parameters of the Companies.

X. Basis of Fair Equity Share Entitlement Ratio

The fair basis of the demerger of Demerged Undertaking of GSPL into AFL and amalgamation of AIPL with AFL would have to be determined after taking into consideration all the factors and methodologies mentioned herein earlier. Though different values have been arrived at under each of the above approaches/ methodologies, for the purposes of recommending a fair equity share entitlement ratio for proposed demerger and amalgamation, it is necessary to arrive at a final value for each of the Companies. It is however important to note that in doing so, I am not attempting to arrive at the absolute value of the shares of the respective Companies, but at their relative values to facilitate the determination of a fair equity share entitlement ratio. For this purpose, it is necessary to give appropriate weights to the values arrived at under each approaches/methods.

In the ultimate analysis, valuation will have to be arrived at by the exercise of judicious discretion by me and judgement taking into account all the relevant factors. There will always be several factors, e.g. quality of management, present and prospective competition, yield on comparable securities and market sentiment, etc. which are not evident from the face of the balance sheets but which will strongly influence the worth of the shares. The determination of valuation is not a precise science and the conclusions arrived at in many cases will, of necessity be subjective and dependent on the exercise of individual judgement. This concept is also recognized in judicial decision. There is therefore, no indisputable single exchange ratio.

While I have provided my recommendations on the share entitlement ratio based on the information available to me and within the scope and constraints of my engagement, others may have a different opinion as to the share entitlement ratio. The final responsibility for the determination of the share entitlement ratio at which the proposed demerger and amalgamation shall take place will be with the Board of Directors of the respective Companies, who should take into account other factors such as their own assessment of the proposed demerger and amalgamation and input of other advisors.

The fair equity share exchange ratio has been arrived at on the basis of a relative fair equity valuation of AFL, GSPL and AIPL based on the various approaches/ methods explained herein earlier and various qualitative factors relevant to each company and the business dynamics and

growth of the business of these Companies, having regard to information base, key underlying assumptions and limitations.

I have independently applied approaches/ methodologies discussed herein earlier and as mentioned in Annexure 1, as considered appropriate, and arrived at the relative value per share of the Companies for determination of share entitlement ratio for the proposed demerger and amalgamation. To arrive at the consensus on the share entitlement ratio for the proposed demerger and amalgamation, suitable minor adjustments/ rounding off have been done.

In light of the above, and on consideration of all the relevant factors and circumstances as discussed and outline hereinabove, we recommend the following fair share entitlement ratio:

For the proposed demerger of demerged undertaking of GSPL into AFL:

727 (Seven Hundred Twenty Seven) equity shares of AFL of INR. 2.00/- each, fully paid-up for every 100 (One Hundred) equity shares of GSPL of INR 10.00/- each, fully paid-up.

For the proposed amalgamation of AIPL with AFL:

8278 (Eight Thousand Two Hundred Seventy Eight) equity shares of AFL of INR. 2.00/- each, fully paid-up for every 100 (One Hundred) equity shares of AIPL of INR 100.00/- each, fully paid-up.

XI. Exclusions and Limitations

- **Responsibility of RV:**

I owe responsibility only to the authority/client that has appointed me under the terms of the engagement letters. I will not be liable for any losses, claims, damages or liabilities arising out of the actions taken, omissions of or advice given by any other person. In no event shall I be liable for any loss, damages, cost or expenses arising in any way from fraudulent acts, misrepresentations or willful default on part of the companies, their directors, employees or agents.

- **Accuracy of Information:**

While my work has involved an analysis of financial information and accounting records, my engagement does not include an audit in accordance with generally accepted auditing standards of the client's existing business records. Accordingly, I assume no responsibility and make no representations with respect to the accuracy or completeness of any information provided by and on behalf the client.

- **Dependence on various assumptions:**

Budgets/ forecasts relate to future events and are based on assumptions which may not remain valid for the whole of the relevant period. Consequently, this information cannot be relied upon to the same extent as that derived from audited accounts for completed accounting periods. I express no opinion as to how closely the actual results will correspond to those projected/forecast.

- **Range of Value Estimate:**

The valuation of companies and assets is made based on the available facts and circumstances and the conclusions arrived at in many cases will be subjective and dependent on the exercise of individual judgment. Although every scientific method has been employed in systematically arriving at the value, there is, therefore, no indisputable single value and the estimate of the value is normally expressed as falling within a likely range. To comply with the client request, I have provided a single value for the Fair Value of the assets of the company. Whilst, I consider the valuation to be both reasonable and defensible based on the information available, others may place a different value.

- **Reliance on data from external sources:**

The actual market price achieved may be higher or lower than our estimate of value (or value range of value) depending upon the circumstances of the transaction (for example the competitive bidding environment), the nature of the business (for example the purchaser's perception of potential synergies). The knowledge, negotiating ability and motivation of the buyers and sellers and the applicability of a discount or premium for control will also affect actual market price achieved. Accordingly, our valuation conclusion will not necessarily be the price at which any agreement proceeds. The final transaction price is something on which the parties themselves have to agree. I also emphasize that our opinion is not the only factor that should be considered by the parties in agreeing the transaction price.

- **Reliance on the representations of the owners/clients, their management and other third parties:**

The client/owner and its management/representatives warranted to us that the information they supplied was complete, accurate and true and correct to the best of their knowledge. I have relied upon the representations of the owners/clients, their management and other third parties concerning the financial data, operational data and maintenance schedule of all plant-machinery-equipment-tools-vehicles, real estate investments and any other investments in tangible assets except as specifically stated to the contrary in the report. I shall not be liable for any loss, damages, cost or expenses arising from fraudulent acts, misrepresentations, or willful default on part of the companies, their directors, employee or their agents.

- **Reliance on data from external sources:**

I have relied on data from external sources also to conclude the valuation. These sources are considered to be reliable and therefore, I assume no liability for the truth or accuracy of any data, opinions or estimates furnished by others that have been used in this analysis. Where I have relied on data, opinions or estimates from external sources, reasonable care has been taken to ensure the accuracy of such data and that such data has been accurately and correctly extracted from those sources and /or reproduced in its proper form and context.

- **Compliance with relevant laws:**

The report assumes that the company/business/asset complies fully with relevant laws and regulations applicable in its area of operations and usage unless otherwise stated, and that the companies/business/assets will be managed in a competent and responsible manner. Further, as specifically stated to the contrary, this report has given no consideration to matters of a legal nature, including issues of legal title and compliance with local laws, and litigations and other Contingent liabilities that are not recorded/reflected in the balance sheet/fixed assets register provided to us.

- **Post Valuation Date Events:**

An analysis of such nature is necessarily based on the prevailing, stock market, financial, economic and other conditions in general and industry trends in particular as in effect on, and the information made available to me as of the date hereof. Events occurring after the date hereof may affect this report and the assumptions used in preparing it, and we do not assume any obligation to update, revise or reaffirm this report.

- **Multiple factors affecting the Valuation Report:**

The valuation report is prepared by the exercise of judicious discretion by the Valuer and judgment taking into account the relevant factors. There will always be several factors, e.g. management capability, present and prospective competition, yield on comparable securities, market sentiment, etc. which may not be apparent from the Balance Sheet but could strongly influence the value.

- **Testimony for the opinion of value in the Valuation Report:**

I am fully aware that based on the opinion of value expressed in this report, I may be required to give testimony or attend court / judicial proceedings with regard to the subject company, although it is out of scope of the assignment, unless specific arrangements to do so have been made in advance, or as otherwise required by law. In such event, the party seeking our evidence in the proceedings shall bear the cost of attending court / judicial proceedings and my tendering evidence before such authority shall be under the applicable laws.

- **Unavailability of information as on Valuation Date:**

The Fair Value of assets of the companies has been performed on the basis of provisional unaudited financials of the Companies provided by management as on valuation date. Hence, based on representation given by the Companies, I have considered financials as on the last available financial statements as the proxy for the financial position as of the valuation date.

- **Definition and Premise of Value:**

It should be noted that liquidation value could be significantly different from fair value or fair market value. Further, Liquidation Value in an orderly sale can be very different from Liquidation Value in a fire sale transaction and Liquidation Value of a single machine or any individual asset on a standalone basis could be very different from Liquidation Value of a single machine or any individual asset as part of the entire plant and machinery.

The issuance of shares under schemes in case of allotment of shares only to a select group of shareholders or shareholders of unlisted companies pursuant to such schemes shall follow the pricing provisions of Chapter V of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended from time to time (hereinafter referred to as "the SEBI ICDR Regulations")

The equity shares of AFL are traded on BSE Limited and as per the definition prescribed under Regulation 164(5) of SEBI ICDR Regulations, the equity shares of AFL are frequently traded shares.

Regulation 164(1) states the price of the equity shares shall be not less than higher of the following:

- a) The 90 trading days volume weighted average price of the related equity shares quoted on the recognized stock exchange preceding the relevant date; or
- b) The 10 trading days volume weighted average price of the related equity shares quoted on the recognized stock exchange preceding the relevant date.

Regulation 164 of SEBI ICDR Regulations specifies the minimum price for issue of shares on a preferential basis. The pricing formula provided in Regulation 164(1) has been considered for arriving at the value per equity share of AFL under the Market Price Method. For detailed working kindly refer to Annexure 2.

I have also considered Price/ Earnings trailing multiples, Price/ Revenue trailing multiples and Price/ Book Value trailing multiple of certain comparable companies of AFL engaged in the similar business to compute the value per equity share using Comparable Companies Multiple (CCM) Method.

The fair value derived from CCM Method is too below from the fair value derived using Market Price Method based on the pricing formula provided in Regulation 164(1) of SEBI ICDR Regulation. Therefore I have assigned zero weight to value of CCM method.

In the absence of adequate details and transactions of companies operating in similar businesses, I am unable to apply CTM method in case of AFL.

The Asset Approach does not reflect the intrinsic value of a business in a going concern scenario. Further since AFL is a listed company on BSE, information related to future profitability is price sensitive in nature and hence the management of AFL has not provided us with the projected financial statements of AFL. In view of this, I have not considered Assets Approach and Income Approach for valuation of equity shares of AFL.

AIPL: Valuation of Equity Shares of INR 100/- each, fully paid up

Since AIPL is an investment holding company and predominantly engaged in undertaking investments and majorly the total value of its assets constitutes from investment in and loan given to its subsidiary i.e. AFL. Therefore, I have applied Net Assets Value method under Asset Approach for fair value of equity shares of AIPL.

GSPL: Valuation of Equity Shares of INR 10/- each, fully paid up

Since the equity shares of GSPL are not listed on any recognized stock exchange, therefore the market price method cannot be applied in the current case.

In the absence of adequate details and transactions of companies operating in similar businesses, I am unable to apply CTM method in case of GSPL.

On analysing the historical financial statements of GSPL, I am of the view that GSPL is a high growth company as the historical revenue growth of GSPL is very high. In addition to above, based on my discussion with the management of GSPL, I further understand that the growth prospect of GSPL is also high in future terms.

Both the principles of valuation and the empirical evidence shows that forward-looking multiples are indeed more accurate predictors of value than historical multiples are.. It also embed future expectations better than multiples based on historical data.

I have considered Price/ Earnings forward year 1 multiples, Price/ Revenue forward year 1 multiples of certain comparable companies of GSPL engaged in the similar business to compute the value per equity share using Comparable Companies Multiple (CCM) Method.

The Asset Approach does not reflect the intrinsic value of a business in a going concern scenario, hence the same has not used. Further since the management of GSPL has not provided me with the projected financial statements for maintainable periods therefore Income Approach for valuation of equity shares of GSPL can not be used. Furthermore, the discounted cash flow method does not considered an appropriate method to evaluate the fair value a BFSI (Banking, Financial Services and Insurance) business.
